

WHAT IF...

YOU DRANK A CUP OF PURE, UNSWEETENED COCOA...

YOU DRANK A CUP OF THE FINEST GREEN TEA...

WHAT IF YOU DRANK A GLASS OF RED WINE EVERY DAY?

If you drank cocoa, green tea and red wine every day, you would be getting a major jolt of antioxidants into your system, but that jolt would still not come close to the major infusion of heart-healthy flavonoids and antioxidants found in just one tablespoon of **COCOBERRI™**.

COCOBERRI™ is a special proprietary formulation that offers deeply-satisfying chocolate-raspberry taste with the latest discoveries in heart-healthy antioxidant science.

Each tablespoon of **COCOBERRI™** contains:

☞ **PURE, UNSWEETENED COCOA POWDER** that's loaded with powerful antioxidants that can increase nitric oxide production which increases blood flow from head to toe. With increased blood flow comes lower blood pressure.

☞ **RESVERATROL** is a highly active compound found largely in the skin of red grapes and it's widely regarded as the secret behind the "French paradox." The French have a relatively high fat diet, but a low incidence of heart disease. (Resveratrol is being closely studied by longevity researchers as an antioxidant that inhibits the "rusting" of arteries.)

☞ **GREEN TEA EXTRACT.** With over 100 phytochemicals, green tea has shown itself to be effective in helping to INHIBIT cell mutations, REDUCE dangerous blood fats, BALANCE HDL and LDL cholesterol, REDUCE blood pressure, INCREASE heart efficiency, and ENHANCE metabolism so food is better digested.

☞ **QUERCETIN.** Numerous studies support the view that the risk of dying from coronary heart disease is reduced dramatically when the diet contains more flavonoids, and quercetin is the most active flavonoid.

☞ **OAT BETA GLUCAN.** Beta Glucan is a special kind of polysaccharide found in a variety of natural substances such as oats, barley, mushrooms and brewer's yeast. Beta Glucan fortifies the body's white blood cells which are the front line of the immune system.

☞ **RED RASPBERRY POWDER.** They contain a substantial quantity of ellagic acid which is a phytochemical that's become known as a potent cell protector and anti-carcinogenic compound.

☞ **PROPRIETARY FRUIT POWER BLEND.** For an added antioxidant boost, **COCOBERRI** includes the latest fruit powder "superstars" including Goji Berry, Acai Berry, Blueberry, Bilberry and Citrus Bioflavonoids – which help support everything from the optic nerve to the sex glands.

☞ **XYLITOL** is one of only two natural sugars that help the body by blocking the spread of bacteria, germs and viruses. That's why xylitol is now found in many of the world's most widely used toothpaste formulas.

Together, the ingredients in **COCOBERRI™** make it the best-tasting, immune-enhancing, heart-strengthening chocolate-raspberry drink you'll find anywhere. Nothing else gives you so many health benefits and fabulous flavor for so little.

Put the world's best-tasting chocolate drink to work for your heart now!

Damaged arterial lining doesn't make enough nitric oxide. If you want to rebuild, repair and restore this delicate lining to complete health, you need to accomplish this through exercise and nitric oxide rich foods like **COCOBERRI™**.
