

Never Again Worry About Too Little Testosterone in Your Tank

It's a fact of life, as men age, their testosterone levels drop. But does this hormonal decline require treatment?

The answer to this one vital question could mean the difference between fizzle and full-throttle sexual satisfaction FOR THE REST OF YOUR LIFE...

**"I'VE SEEN
SCORES OF
MALE ENHANCEMENT
FORMULAS ON THE WEB.**

**DO ANY OF THEM
REALLY WORK?"**

This is a vital health question (not just a sex question) so I asked the researchers at IVL to go on a testing spree. They've spent 6 years testing dozens and dozens of formulas and the results were both disturbing and enlightening.

Some of the formulas had been "tweaked" with dangerous, untested, unproven drugs and did in fact, work, but were later pulled from the market. Some of them did nothing. Others seemed to work, but then not. So, IVL, under my guidance, set about creating an all-natural powerhouse formula that rebuilds, recharges and restores sexual health from the ground floor UP.

DEAR NEW MAN
STARTING TODAY,

**WANT TO KEEP GOING
STRONG IN THE BEDROOM
WHEN SO MANY MEN
OVER 40 START TO FADE?**

IT'S MUCH EASIER
THAN YOU THINK...

If for any reason your sex life is not all that you want it to be, then you owe it to yourself and your partner to read this life-changing letter NOW...

What you're about to read will not only help you recharge your sex life, but it will also help re-energize your health and outlook like never before.

First of all, you should know (buckle up for this shocker)...

Impotence (or Erectile Dysfunction) is fast becoming epidemic in America, even among men under forty.

Imagine this under-reported grief...

**PROBLEMS OF IMPOTENCY ADVERSELY AFFECT
MORE THAN 50% OF MEN DURING THEIR LIFETIME.
THAT MEANS TENS OF MILLIONS OF MEN ARE
SUFFERING FROM SOMETHING THAT SHOULD
ONLY BRING THEM JOY AND PLEASURE...**

What's the big deal, you ask.

Just go to your doctor and get a prescription for Viagra® or one of the other top three male enhancement drugs.

NOT SO FAST.

As with every drug on the market, all the male enhancement drugs come with side effects, some of them very serious and potentially life-threatening including dizziness, flushed face, ear ringing, eye pain, blurred vision, blindness, muscle and joint pain, fatigue, racing heart beat and heart attack. STILL, THE DESIRE FOR SATISFYING SEX WILL DRIVE MEN TO USE DRUGS THEY DON'T LIKE AND THAT THEY KNOW ARE PUTTING THEM IN HARM'S WAY.

**THE SAD IRONY IS THIS: WHILE VIAGRA® MAY
PROVIDE THE SPARK OF YOUTH AND VIGOR IN
THE SHORT RUN, IT WILL ALSO "BURN OUT" YOUR
SEXUAL CIRCUITRY IN THE LONG RUN. LET'S FACE IT...**

Sex is about confidence because if you don't have it, then that lack of confidence can be your biggest enemy in the bedroom. More than anything else, this lack of confidence can drag down your relationship. Plus...

- NO CONFIDENCE can make you try just about any solution.
- NO CONFIDENCE can make you crazy with performance anxiety.
- NO CONFIDENCE can make you lazy about having a deeply satisfying sex life.
- NO CONFIDENCE can make you want to give up and tell yourself that all your best sexual experiences are in the past. But...

If you can regain your sexual confidence, WOW WHAT A DIFFERENCE. You feel excited, connected, powerful, in charge.

And this new-found confidence just keeps getting better and better. Making you feel firmer, harder, more vigorous, more ready to go. So...

Today, I want to tell you about how to restore your sexual confidence to full-throttle strength – the easy way, by using POTENEX™ – a brand new breakthrough rejuvenation formula custom made for men. (More about POTENEX in a minute, first let's talk more about the causes of ED...)

Why is ED (erectile dysfunction) increasing among American men?

There are two main culprits: a sedentary lifestyle and poor food choices.

Life is movement and you can't stay healthy and energized if you don't move. Between driving, working at desks and watching TV, American men are among the most sedentary in the world. And...

Despite our best intentions to eat healthy foods, American men are chronically overweight – especially over 50. BY 60, ONE OUT OF EVERY THREE MEN SUFFERS FROM ED.

THE SECRET TO STAYING VIRILE IS NOT VIAGRA®

The big surprise is that even though loss of libido AND impotence increase with age, AGING ITSELF is not the cause.

SO WHAT CAUSES ED?

ED can stem from heart disease, diabetes, pelvic surgery, decreased male hormones, antihypertensives, antidepressants,

Your sexual potency is largely dependent on three vital factors:

- 1. Adequate testosterone levels**
- 2. Adequate sensory stimulation**
- 3. Adequate blood supply to the erectile tissues, yet all three of these factors are anchored in good nutrition.**

tranquilizers, alcohol, tobacco and the list goes on. HOWEVER...

The chief cause is decreased blood flow to the penis due to atherosclerosis of the penile artery that's caused by fatty and sugary foods.

A diet rich in whole foods, particularly fruits and vegetables, whole grains and legumes is extremely important. Adequate protein is also a must, but you need to get it from clean protein sources, avoiding animal products as much as possible, except for mercury free fatty fish such as salmon, halibut and sardines, free range and organic poultry products and at least one serving of whole soy a day. You should know that...

There are a variety of medical treatments for ED, but each has its drawbacks.

THE BEST APPROACH TO TAKING CHARGE OF YOUR SEX LIFE WITH RENEWED VIGOR is a natural one that involves simple changes in diet, exercise, and the use of the most powerful and targeted herbal nutrition currently known – all found in POTENEX™ – available only by direct order from the Institute for Vibrant Living™.

HERE'S WHAT YOU GET INSIDE EACH CAPSULE OF

POTENEX™ ...

POTENEX #1 – MIRACLE MUIRA PUAMA! Muira Puama is a tree that grows in the rain forests of Brazil. Commonly referred to as Potency Wood or Root of the Male. Provides distinct sexual stimulation for both sexes. Also indicated for those with low energy levels but no particular emotional problems, impotency, general fatigue, cold hands and feet.

POTENEX #2 – POWERFUL PANAX GINSENG! Panax Ginseng also known as Chinese ginseng, has been widely used in Traditional Chinese Medicine to help increase sexual stamina. It's considered one of the best rejuvenative herbs because it helps promote circulation and reduce high blood pressure.

POTENEX #3 – ALL DAY L-ARGININE!

L-Arginine gives you a harder, firmer pump in all your muscles. How? It stimulates Nitric Oxide production, leading to increased vasodilatation which translates to an "all-day" pump and increased "cell signaling" for increased protein synthesis and recovery.

POTENEX #4 – TESTOSTERONE TONGKAT!

Tongkat, also commonly known as Longjack, helps increase free testosterone. This increase translates into a feeling of well-being, increased sex drive, quicker recovery from exercise, improved mental focus and immune system function and reductions in body fat.

POTENEX #5 – RICH MACA!

Maca Root, often referred to as Peruvian Viagra®, is grown wild at 14,000 feet. Maca increases sexual urges and fertility in men and women and is said to relieve menopause and andropause (MALE) symptoms, correcting hormonal imbalances in days. It's amazingly rich in amino acids, phytonutrients, fatty acids, vitamins and minerals, almost like a one-a-day multivitamin.

POTENEX #6 – TESTOSTERONE TRIBULUS! Tribulus boosts your testosterone levels, speeds fat loss, enhances strength and endurance, thus increasing muscle mass, tone and overall athletic performance.

POTENEX #7 – HOT HORNY GOAT WEED! Horny Goat Weed has been used as a sexual tonic in Traditional Chinese Medicine for thousands of years. It bolsters sexual performance through the actions of a flavonoid known as icariin. This herb is also an overall tonic and restorative and brings warm feelings of euphoria and increases nerve sensitivity in the genital areas. Restores sexual fire and combats fatigue.

POTENEX #8 – PROTECTING SAW PALMETTO! Many prostate problems are connected to high levels of dihydrotestosterone, which causes cells in the prostate to over-multiply, resulting in inflammation, blockage, symptoms of frequent and uncomfortable urination. Saw Palmetto helps combat this by increasing blood flow to the bladder muscles.

POTENEX #9 – SENSATIONAL SUMA! The overall effect of Suma is to give you an increased resistance to stress while having a cell-building effect. Researchers have identified 152 chemical constituents in Suma, including 19 amino acids, electrolytic and trace minerals, as well as vitamins and pantothenic acid and high amounts of the trace element germanium, which is a powerful immune stimulator.

POTENEX #10 – LEGENDARY CATUABA! Here is the most famous of all the Brazilian aphrodisiac plants. It's a strong tonic and nervous system fortifier. It's known for its general ability to give strength and relieve fatigue. It's often used in combination with Muira Puama for toning the male sexual and urinary organs.

POTENEX #11 – PROTECTING PUMPKIN SEED POWDER! Pumpkin seeds promote overall prostate health and alleviate the difficult urination associated with an enlarged prostate. Zinc-rich foods like pumpkin seeds are vital for virility. Many studies indicate that a deficiency of zinc in the diet is associated not only with diminished potency, but also with prostate disorders.

POTENEX #12 – POWERFUL LYCOPENE! According to the American Cancer Society, people who have diets rich in tomatoes, which contain lycopene, appear to have a lower risk of prostate, lung and stomach cancers. Scientists describe lycopene as a powerful antioxidant that blocks the action of free radicals that can damage cells. (The antioxidant strength of lycopene is at least TWICE as great as beta carotene, another carotenoid that's also thought to be an effective cancer-preventing nutrient.)

Together, the twelve amazingly-helpful, clinically -tested-and-proven ingredients in POTENEX™ make it a powerhouse male enhancement formula, unlike any other you've ever heard about or tried.

CORRECTS OLD PROBLEMS FAST, THEN HELPS YOU BUILD A TOWER OF POWER FOR GOOD!

POTENEX™ will help correct the underlying hormonal causes of ED and then help rebuild and recharge your sex glands SO THEY STAY STRONG AND VITAL FOR LIFE.

While POTENEX helps your body jumpstart this much needed correction, it will also help improve your heart function, improve energy and strength, provide prostate and bladder protection and much MORE.

BONUS EXTRA: BOOST YOUR BRAIN WHILE YOU TURBO CHARGE YOUR SEX LIFE.

If you want to stay young and virile, you'll want to keep up with a regular sex life.

THE BEST LONGEVITY SECRET OF ALL IS ALSO THE MOST PLEASURABLE: You are only as young as your sex glands. Sexual inactivity causes them to atrophy. But here's the SECOND PAYDAY YOU'LL ENJOY WHEN YOU USE POTENEX...

WHEN YOU AVOID SEXUAL D & D (Droop and Drag), YOU'LL ALSO AVOID BRAIN D & D. Studies show that regular sex increases the supply of oxygen to your brain and stimulates brain cell activity. Other benefits of regular sex are: Energy gain, cholesterol reduction, pain relief, stress relief, hormonal increase and last but not least, marital bliss.

NOTHING LESS THAN YOUR MOST ENDURING SEXUAL ENERGY BOOST AWAITS. NOT FOR ONE NIGHT OR TWO, BUT FOR THE REST OF YOUR LIFE.

WOULD YOU LIKE TO RECHARGE YOUR SEXUAL BATTERIES FOR LIFE

OR LOOK LIKE THIS?

It's no secret: after 50, men go through an age-related decline in sex hormones. Unless, they take fast action those declining hormones can cause weight gain, hair loss, breast growth and ED.

Now, by using POTENEX™ on a regular daily basis, there's an easy, all-natural way to retool and reload hormone function, improve prostate protection and increase circulation to the sex glands, not just one time, but for the rest of your life.

Regardless of your age or physical condition, POTENEX can help rebuild and recharge your sex life like never before. Don't settle for dangerous drugs and untested remedies, when you can now rely on a proven herbal formula that's doctor approved and already road tested by men of all ages.

Viagra® carries five times as many warnings as it does benefits, but virtually every man who uses it suffers from blurred vision. Some men have gone blind using it and several deaths have been reported. And in the ten years Viagra® has been on the market, no studies have been conducted to determine what its long term effects are on the male body.

Plus, Viagra® treats ED but does nothing to intensify your sexual desire. Only testosterone can accomplish that.

The powerful herbal activators in POTENEX™ can help your body to produce more testosterone and intensify your desire.

BUCKLE UP, MY FRIEND, BECAUSE HERE ARE 10 AMAZING BENEFITS THAT POTENEX™ OFFERS YOU FOR LIFE...

- **INCREASED** mental quickness and sharpness
- **INCREASED** energy, strength and endurance
- **GREATER** desire for exercise and activity
- **INCREASED** muscle mass and tone
- **INCREASED** sex drive and function
- **EASIER** weight loss due to increased metabolism
- **BETTER** circulation and heart function
- **GREATER** protection for bladder and prostate
- **GREATER** ease in maintaining a positive mind set
- **IMPROVED** immune response as a result of improved cellular function.

SIMPLE SEX SECRET #1!

Zinc is the most important mineral for peak prostate function and sexual potency. Sadly, zinc has been zapped from our calorie-packed processed foods. **THE BEST WAY TO USE IT IS THROUGH SUPER FOODS LIKE...**

Brewer's yeast, egg yolks, legumes, pecans, poultry, sardines, seafood, soybeans, unrefined whole grains, pumpkin and sunflower seeds and almonds.

SIMPLE SEX SECRET #2!

Vigorous walking in fresh air and/or regular daily exercise is imperative for preservation of your sex glands.

SIMPLE SEX SECRET #3!

Systematic under-eating is one of the prime secrets of youthful vitality. Extra weight rapidly ages you – mentally, physically and sexually. Avoid smoking, coffee, salt, soda pop, alcohol, all processed foods, especially white sugar and white flour – all of these substances either de-hydrate your body or bog it down with sludge.

WHAT YOU CAN EXPECT FROM USING POTENEX™?

How about a new man ready to roll in any situation!

AFTER 2 WEEKS:
INCREASED MENTAL FOCUS AND QUICKNESS

AFTER 3 WEEKS:
INCREASED ENERGY AND A DESIRE TO BE MORE ACTIVE

AFTER 4 WEEKS:
INCREASED SEX DRIVE AND BETTER ERECTIONS

AFTER 8 WEEKS:
FURTHER IMPROVEMENT IN ENERGY, ENDURANCE, REDUCED FAT AND MUSCLE TONE.

AFTER 12 WEEKS:
A NEW MAN READY TO ROLL IN ANY SITUATION!

YOUR "MUST-READ" GLOSSARY OF SEX TERMS STARTS HERE...

NOT-FOR-YOU ED (erectile dysfunction). An inability to get or maintain an erection due to a lack of testosterone or damage to the cavernous nerves in the penis. ED is also called impotence.

DREARY ANDROPAUSE! Like women who go through menopause, men at around 50, go through a more gradual age-related decline in hormones called androgens. For that reason, the male version of menopause is sometimes called "Andropause." Andropause is linked to weight gain, hair loss, breast growth and impotence.

MALE HORMONE IMBALANCE! Anything that increases your estrogen levels will create a corresponding drop in your testosterone. And that's bad. How does this happen? Here are the main culprits: excessive alcohol use, exposure to pesticides and solvents in our water, food, soil and air, estrogen-fed red meat and prescription drugs.

VITAL FORCE TESTOSTERONE: To better grasp the worries of andropause, you need to understand what testosterone is and what it does in your body. Testosterone is produced in the testes and adrenal glands and then distributed throughout your body. It's responsible for building protein, regulating your metabolic system, producing blood cells in bone marrow and regulating the growth of the prostate gland.

The great benefit of testosterone, however, is the role it plays in helping regulate the male libido and producing erections.

How do you keep your testosterone levels high – without using testosterone replacement therapy?

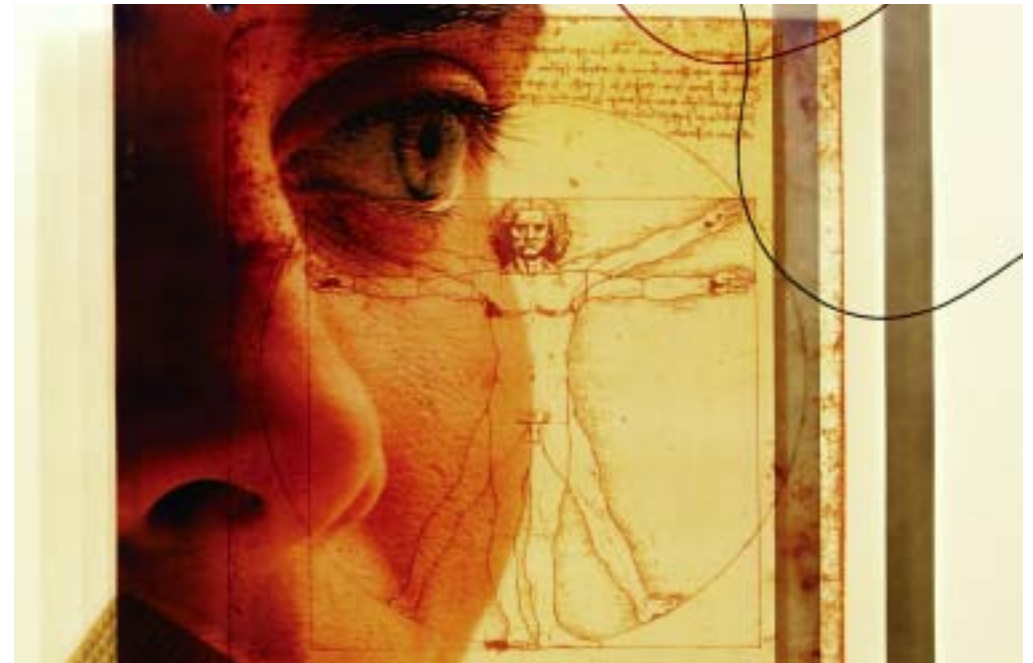

By eating zinc-rich foods, by getting regular exercise and by using **POTENEX™** that's rich in herbal compounds that promote free testosterone production. There's no other male-only formula that offers you so much power and pleasure for so very little.

RESULTS GUARANTEED OR YOUR MONEY BACK!

HOW MUCH TESTOSTERONE CAN YOU AFFORD TO LOSE?

For most men, the average drop in testosterone is about 10% for each decade after 30, but with increased estrogenic substances in our environment that rate might actually be higher. One fact is clear: low testosterone leads to weight gain, hair loss, breast growth and impotence.

WHY POTENEX™ IS A CUT ABOVE ALL OTHER MALE ENHANCEMENT FORMULAS ON THE MARKET?

Lots of male enhancement formulas make the big promise of faster, firmer erections. The problem is: those same formulas don't help the male body correct the underlying causes of sexual fatigue and hormonal imbalance. And because they offer you NO long term solution, they are NOT worth your money.

Now, there's a better, faster, easier and safer way to get back all the sexual power you want.

Now, there's **POTENEX** – a brand-new formula that can actually **TARGET** hormonal weakness and help rebuild and recharge your sexual energy from the ground floor up and...

GIVE YOU firmer and longer-lasting erections as well as prostate and bladder protection, energy improvement and stamina.

WHAT IS SINKING THE MALE SEX LIFE

AND WHAT EXACTLY WILL MAKE IT RISE AGAIN?

A QUESTION AND ANSWER SESSION WITH DR. DEVIN MIKLES, M.D. ...

Questions from Jay White, Founder of IVL

Q: What causes impotence or ED?

A: Several things need to be considered. First, in their 40s, men start to go through a male version of menopause, sometimes called "Andropause". This is where the body is producing more estrogen than testosterone – so we often see weight gain, hair loss, breast growth and ED. So, this is one fact: the age-related decline of the production of testosterone leads to andropause that leads to ED.

Q: Are there other causes for waning libido?

A: There are many other factors. There could be blood vessel restriction and other circulatory problems ranging from clogged arteries to high blood pressure, but poor sex drive is often linked to flagging male hormone production.

Q: How can you safeguard against increased estrogen?

A: Excessive alcohol use, lack of regular daily exercise, exposure to pesticides and solvents, smoking, over-consumption of non-organic red meat, over reliance on certain prescription drugs like antibiotics, betablockers, antihistamines – these all contribute to estrogen production, which will not do anyone any favors.

Q: How can you increase testosterone production?

A: There is a natural decline of testosterone in men starting around 40. Testosterone is the main male hormone that maintains muscle mass and strength, fat distribution, bone mass, sperm production, sex drive and potency. So, it might be tempting to

ask your doctor about testosterone replacement therapy, but most people don't need it. No long-term studies have weighed the potential benefits against the possible risks, including prostate cancer.

Having said that, there are several herbs that promote testosterone production and circulation including Tribulus, Horny Goat Weed and Tongkat.

Q: What's the best natural way to stimulate the sex glands and protect the prostate?

A: That's an easy one: the best organic food, any form of daily exercise and well-studied herbal supplements like saw palmetto, tribulus, panax ginseng, maca and others. When you help protect the prostate, you make it easier to increase blood flow to the entire area.

Q: How would you rate the new formula POTENEX™?

A: POTENEX is one of the most comprehensive male enhancement formulas ever developed. Any man over 40 is likely to benefit from it greatly. It's not easy for a man to watch his sexual potency and desire wane, and I see every reason why this formula should remove a lot of worry and frustration from this often difficult and troubling area of health concern.

If you want to avoid a sinking sex life that adversely effects up to 50% of men over 40, then you'll want to try POTENEX™ for 60 days – RISK FREE!
